## Home Based Applied Behavioral Analysis Therapy & Center Based Occupational Therapy, Physical Therapy, and Speech Therapy Services

We have licensed, certified, personnel, experienced in working with children with a variety of developmental disabilities, and /or have a diagnosis on the Autism Spectrum. They are ready to provide evaluations, design individual treatment plans, deliver direct services and provide progress monitoring and treatment adjustments to maximize success. Our services are covered by most insurance plans.

We offer:

- Home based ABA therapy, which is an evidence-based treatment program which includes intensive 1:1 behavior therapy focused on the development of language, communication, play, social interactions, etc., highlighted by the reduction of problem behaviors. To be considered your child must have an autism diagnosis.
- Occupational Therapy, including sensory integration at our Gateways Therapy Center, for children ages 3 and up.
- Speech and Language Therapy at our Gateways Therapy Center, for children ages 3 and up.
- Physical Therapy at our Gateways Therapy Center, for children ages 3 and up. We also have the LiteGait® to facilitate children learning to walk, improve balance, coordination and posture.

## Therapy Components

Evaluations	Identify skill deficits and/or interfering behaviors, and establish current levels of performance.
Treatment Plans	Are individually designed with identification of target goals and objectives to maximize a sense of accomplishment
Direct Therapy	Qualified therapist provide 1:1 therapy sessions using the highly motivational & natural interactions of play
Plan Adjustments	Treatment plans are adjusted based on effectiveness of interventions and data analysis
